Student Name: _____

Grade:_____   Date:_____

1. Last Thursday was "R U OK" Day around Australia. If the words that R U OK were written out in full on 6 separate advertising signs, how many letters would that be altogether?

2. In the new cartoon movie "**The Secret Life of Pets**", there is a total of 6 cats and 8 dogs involved in many amazing scenes. Cats have 18 toes, and dogs have 16 toes, so how many toes did these animals have altogether?

3. Justin Bieber recently bought a take-away lunch. But when he went to pay for it, his credit card was declined. So a fan of Justin's paid the $10.50 for the lunch. How much change did Justin's fan get from a $50 note?

4. Pop music genius Molly Meldrum says he is a sucker for buying vacuum cleaners. He now has 4 of them, and each one cost $69.95. What was the total price of those vacuum cleaners?

5. A new mobile phone App (it's free!) called "One Touch Tennis" is fun to play, and teaches you great timing. If each level takes you 1½ minutes to succeed, how long would it take to get to Level 6?

6. The "**Tweety Bird**" show bag at the Royal Show costs $30. It contains 12 fun items. If each of those items is worth the same amount, how much is each item worth?

7. The new "**Family Feud**" edition of the game is now available for $29.95 plus $7.95 postage. If Sammy bought 2 sets of the game, and they only charged one postage fee, what was the total amount Sammy had to pay?

8. At Steve's local car parts shop, their hours of opening are as follows: Mon–Fri 9am–9pm, Sat 9am–5pm, Sun 9 am–4 pm. For how many hours are they open each week?

9. Eyesight specialists have said that children should play outside for at least 1½ hours each day, to prevent them becoming short sighted. How many minutes is that?

10. Open-ended Question: A book cover has an area of 80 cm². What could the perimeter of the cover be? Give 3 possible answers.
